

Slõ Syrup

Liquid drinks thickener

Prescribing & Product Information (Pre-ACBS)

Slõ Syrup – Prescribing & Product Information (Pre-ACBS)

This document provides the prescribing and product information required to support a non-formulary prescription request for Slõ Syrup, which is not currently listed on local formularies.

The table below is provided as an indicative 28-day supply guide to support accurate prescribing and supply once Slõ Syrup has been approved for use for an individual patient.

Volumes shown are indicative and assume a standard drink volume of 200 ml. Actual requirements should be determined by the prescribing clinician based on individual intake and IDDSI level.

IDDSI Level	1	1	1	2	2	2	3	3	3
